

Free Amplified Phones!!

Do you have a hard time using a regular phone?

Do you find yourself asking, "Can you say that again" or "What did you say?"

Do you avoid using the regular phone because you can't hear what's being said?"

Do you miss chatting with your family and friends on the phone?

Ask how you can get a FREE* amplified phone to solve these daily problems.

*FREE to those who qualify. To qualify, you must be a legal resident of Illinois, have standard phone service, and be unable to use standard phone service as certified by a licensed physician or licensed audiologist.

Try an amplified phone and hear the difference...

Service provided by Illinois Telecommunication Access Corporation (ITAC) and RAMP

RAMP is a non-profit that provides services and advocacy for people with all disabilities to live independently, including people who are hard of hearing. We participate in a program that the state has mandated to provide amplified phones to residents of Illinois who have experienced hearing loss. If you have trouble hearing on the phone, you can get a FREE amplified phone through the Illinois Telecommunication Access Corporation (ITAC). This is truly a free phone and is funded by a small charge on all standard phone bills. We have seen this program assist people who have not been able to hear well enough to again communicate with friends and family easily. It is rewarding to hear a grandparent say that their new phone has allowed them to talk to their grandchild on the phone; or to hear someone say they are be able to call their best friends and talk again. It's easy to qualify, you must:

- Be a legal resident of Illinois
- Have a doctor or audiologist certify that you are unable to use standard phone service
- Have a working land line phone service in your residence

RAMP empowers people with disabilities to realize there are no limits to what they can do. Sometimes all it takes is the right telephone. Feel free to give us a call at (815)233-1128 if you have any questions, to obtain an application or schedule a time to test the phones.
